Langdon Cook goes in search of the salmon in *Upstream*, his timely and in-depth look at how these beloved fish have nourished humankind through the ages and why their destiny is so closely tied to our own. Cook journeys up and down salmon country, from the glacial rivers of Alaska to the rainforests of the Pacific Northwest to California's drought-stricken Central Valley and a wealth of places in between. Reporting from remote coastlines and busy city streets, he follows today's commercial pipeline from fisherman's net to corporate seafood vendor to boutique marketplace. At stake is nothing less than an ancient livelihood.
