

2014 Mat-Su Salmon Science & Conservation Symposium

November 18 & 19

Palmer Community Center (Depot), 610 S. Valley Way, Palmer, Alaska

The seventh annual Mat-Su Salmon Symposium is a forum to share information on Mat-Su Basin watersheds, salmon, and salmon habitat and to promote an exchange of ideas about salmon science and conservation in the Mat-Su Basin.

Keynote Speakers:

Recently retired, **Dr. Katherine Myers** is an internationally recognized fisheries scientist who has been with the University of Washington's High Seas Research Program since 1980. She received the 2014 North Pacific Anadromous Fish Commission Award in recognition of her long-term leadership in scientific research and conservation, her extensive body of published work on Pacific salmon and steelhead, and for her commitment to fostering cooperation among international researchers.

Mary Colligan has over 20 years of experience with the complexities of recovering salmon and the necessity of diverse partnerships in her former roles as President of the international North Atlantic Salmon Conservation Organization and head of the National Marine Fisheries Service's Northeast Protected Resources Division.

Find registration and presentation information in your email or at:
