Death to a deadbeat dam

A 61-foot dam
that helped kill
off Eklutna
River salmon
runs will finally
be removed.
Will the fish
return one day?

An aerial photograph of a river winding through a lush, green landscape. The river's water is a vibrant turquoise color, contrasting with the surrounding dense green vegetation. A prominent sandbar is visible on the left side of the river. The overall scene conveys a sense of natural beauty and environmental conservation.
